V. Recommendations, Discussion / Information Item

A. Strategic planning discussion: Quality Measures (Attachment #3)

Dr. Wyatt provided an overview of the presentation, which included information on the following subjects:

- Definition of Health Care Quality
- Meaningful Measures – Framework, Goals and Objectives
- Most Critical Measures Areas
- Aim: Promote Effective Prevention and Treatment of Chronic Disease
- Centers for Medicare and Medicaid Services (CMS) Star Ratings – Measures and Data
- Star Quality Action Plan
- Star Quality Steering Committee
- CMS Measure Focused Finding Workgroup
- Proposed Structure
- Next Steps

V. Recommendations, Discussion / Information Item

A. Strategic planning discussion: Quality Measures (continued)

During the review of the measures and data, Board Chair Hammock recommended that the column in the data charts that show the comparison to national mean should instead reflect whether Stroger Hospital's results are better or otherwise than the national mean, rather than "above" or "below."

Following the discussion, Board Chair Hammock observed that this is a great programmatic approach; however, he did not hear a lot about financial impact. He thinks the organization has to be realistic in the following two (2) ways: 1) each initiative needs to have a candid cost benefit review; and 2) in cooperation with the Chief Financial Officer, the administration should determine a sum of money that could be used to fund key initiatives, and get that on the budget prospect for the year.

VI. Closed Meeting Items

- A. Medical Staff Appointments/Re-appointments/Changes**
- B. Claims, Litigation and Quality and Patient Safety Matters**
- C. Matters protected under the federal Patient Safety and Quality Improvement Act of 2005 and the Health Insurance Portability and Accountability Act of 1996**

The Committee did not recess into a closed meeting.

VII. Adjourn

As the agenda was exhausted, Chair Gugenheim declared the meeting
